CONTINUE TO SELL HIGH

That the demand for silver in the arts is now at a premium and that the world demand for business in now greater than it ever was, is the opinion of the producers' representatives in the east, according to Sam Saupkoff, a mining engineer, who has just returned from New York for the holidays. Prior to the six weeks in New York, Mr. Soupkoff has been for several months examining mines in South America.

According to Mr. Soupkoff the world demand for silver this year amounts to 460,000,000 ounces, while the entire world production on account of strikes,"the curtaliment of copper production and other difficulties, will not exceed 140,000,000 ounces this year. China has been taking a large amount of silver, but India is demanding a great deal more. The indications are that the demand for silver will continue for a number of years.

GEORGE WALSH AT BUTLER TONIGHT.

The attraction at the Butler today s George Walsh, the Wm. Fox star of dashing, daredevil romances, in a varsity protoplay entitled "The Winning Stroke." The drama is said to mark a motion picture epoch, as it is the first big film dealing with the life of a great American university in which scenes were made "on the spot." George Walsh, as the stroke oar of the Yale crew, is involved in a game of love and intrigue that demands the sort of acting for which Waish is noted. The picture shows actual scenes of hte Yale-Harvard 'varsity race and many typical college life incidents were filmed on and about the Yale campus by special concession of the faculty. Added to the feature will be a Ford Educational Weekly and a Mutt and Jeff comedy.

Tomorrow, George Beban, ian characters, in what the critics and the public say is Mr. Rabents ning after looking over Tonopah world's greatest portrayer of Italbest picture, "Hearts of Men," a Divide, expects to leave tomorrow story simple in theme yet powerful in its human appeal nathos and delicate comedy. This is George Beban's latest picture, and as he has not been seen here for some time, will be looked forward to with a great deal of interest by all "movie"

In the opinion of the best economists in the United States the peoples' greatest weapon against high prices s the Government's Thrift and War Savings Stamps. Every family should have a budget, just as every successful business has a budget. The first thing on that budget should be the amount to be saved from the weekly or monthly income not the amount to be spent. Make what you save govern the amount you spend, not the amount you spend govern the amount you save.

War Savings Stamps bring 4 per cent interest, compounded every three months. Hit high prices below the belt by investing in United States securities. The dollar you save today will be worth twice as much five years
